Dive Results/Remarks: Second Pisces IV dive to return to Midget sub site to continue survey and documentary filming with Pisces V. 1512 Dive and hold position in mid water for divers. Give descending signal after 5 minutes Divers stay with sub to 50m. This causes problems when divers cannot ascend due to decompression requirements. The support ship cannot maneuver with divers still down. 1534 411m On the bottom. Descended over the top of Pisces V at midget sub. Move away to jettison descent weights. Moving over midget sub with Pisces V to get necessary shots and conduct an evaluation survey with Dan & Doug. 1715 Pisces V leaves the bottom. Conduct a survey of the area around the midget sub while waiting for the Pisces V to be recovered. 1834 Leave the bottom from 404m. Make an after dark recovery.
