GG101 DYNAMIC EARTH - Fall 2007

iClicker use policy

iClickers have been shown to increase class participation and test scores in university classrooms throughout the country. The Department of Geology and Geophysics has purchased iClickers to enhance the learning environment and is using them for the first time this semester. This is an experiment, thanks for your participation! Your feedback on any aspect of the iClicker use is very welcome.

1) iClickers are property of the Department of Geology and Geophysics at the University of Hawaii.

2) Each student has been assigned an iClicker that they will use throughout the semester. This iClicker number is linked to their student ID and will be used to tally participation points during the semester (5% of final grade). iClicker participation points cannot be made up.

3) Students are responsible for returning iClickers at the end of each class session. Any missing iClickers will result in a hold on the final course grade for the student whose ID is associated with the missing unit.

4) Loaner iClicker units are available in case of missing/broken units, please notify the professor so that loaner unit points are correctly credited towards your class participation.

5) Any deviation from these guidelines is at the discretion of the professor.
