Other Color Video & recorder, CTD & recorder Visibility \_\_\_\_\_

Fish sucker, Niskin bottle, Sediment sample ABT # at Neutral 150#

Dive Results/Remarks: 1119 on the bottom in 1140ft. Tracking Helle pinger which has been sent down a polypro line to a large pyramid shrimp trap. Flat silty bottom. 1218 Locate trap at 1140ft. There are many shrimp in the trap.

Took video of shrimp in trap, shrimp feeding on dead shrimp, and sting rays swimming around trap. 1244 Took Niskin water sample and sediment sample. Collected shrimp in fish sucker.

1300 Polypro down line to trap fouls on starboard light. After trying a combination of maneuvers around line sub is still fouled. Ascend up line. Free sub from line at 700ft.

Surface. Normal recovery

Equipment Deficiencies: Hoover motor not functioning properly.
