Dive Results/Remarks: Landed at 400'. Forest of gray gorgonians, spectacular steep cliffs, lots of fish. Travelled around SE point of Brooks Banks to deeper water. Generally a 45° slope with occasional large rock monoliths ~ 50-80' high. Bottom sandy with gravelly rubble. Ascent from 1200' up sandy 45° slope to 450' base of cliffs. Top of cliffs at 300' - very flat. Normal recovery.

Equipment Deficiencies: Thermistor outPort light out - reoriented beam light to point forwardPilot Don C. OrrDate 12 Sep 84Ops. Mgr R. KerbyDate 9/12/84
