 Captain Ross Barnes

Purpose: Research Training Demo  
 Other: \_\_\_\_\_  
 Special Equipment:  
 Camera (type) None  
 Manipulator Hyco - Titan  
 Other \_\_\_\_\_  
 Support Vessel R/V Kaimikai-O-Kenaba

Dive Results/Remarks: Test and survey dive. First test dive for Pisces V for the 2003 dive season. Moving down a sandy slope after landing on the bottom in 107m. Move south to investigate 4 side scan targets on the way to conduct an inspection of the sunken Japanese midget sub. Current is moving to the WSW. Miss target A & B. Do not see any substantial contacts on the subs sonar. 1238 348m Locate a large rock in the vicinity of the next target. Continue to the south. 1307 374m Into an area of numerous rock targets. 1320 Land on top of a large rock at 379 for a position. Move to the SW. 1355 Position on another large rock. Move to the East. 1442 405m Have located midget sub. Conduct a survey of the sub. It seems unchanged since last Dec. Move to the West towards the site of the wreck of the PC. There are clear numbers on the port bow. "PC 578" P-V conducts 3 survey passes over the wreck. Move south to 430m. Locate an old truck. 1611 Leave the bottom from 430m
