

R/V Acoustic Habitat Investigator (AHI) System Configuration

Revised: 4/12/2009

Ethernet IP addresses:
 ISS2000 LAN1 (Sonar): 192.168.0.1
 ISS2000 LAN2 (POS/MV): 192.168.1.1
 ISS2000 Ship LAN: 128.171.159.240 or DHCP
 RESON 10Base1: 192.168.0.2
 POS/MV LAN: 192.168.1.2

Cable naming convention:

- Major Subsystems
 I = ISS2000
 S = Sonar
 P = POS/MV
 D = Differential Services
 R = Raymarine
- Cables between subsystems have two letters, e.g. IP1 defining the cable location (running from the ISS2000 to the POS/MV)
- Cables with one letter (e.g., I1) are used within the subsystem
